“A new era in latin music”

Latin | World Music | Traditional | Contemporary | Jazz

PRESS RELEASE

Zanja Records announce their second release.

Havana Negra is a band made up of highly talented Jazz musicians from Cuba. This spectacular release will be available in two physical editions – On Vinyl with a luxurious gatefold cover with 4 page full color insert , classic black 180-gram audiophile pressing and on CD with a 16 page booklet.

Release date: December 13th, 2024.

Under the direction of Alain Ladron de Guevara and Roger Rizo, Havana Negra represents the new blood from Cuba, most of the band members being winners of the “Jojazz” Award for the country’s best young jazz musicians. Add to the mix a natural singer of the Cuban son and a couple more singers from a Rumba background. The outcome is revolutionary music that could only come out of Cuba. Their music has a cinematic sound. It is at times traditional, at other, violent.

This album is their scream of music rebellion.

Havana Negra will take you through a journey of Montuno, Guajira, Psychedelia, Jazz and Funk. Music lovers always want new sounds, and this debut album by Havana Negra delivers exactly that.

This album could only have happened with young, gifted musicians, willing to take chances. Don’t miss your chance to experience the new sounds coming from Centro Havana, Cuba, the corner stone for lovers of Cuban music.
